

KAJAL PRUTHI

kajalpruthi7817@gmail.com | (+91) 9996632188

SKILLS

- ❖ **Languages:** C++, Python, HTML/CSS, Javascript
- ❖ **Frameworks/ Libraries:** ReactJS, Bootstrap, Tailwind CSS, daisyUI, Node.js, Express.js
- ❖ **Databases:** MongoDB, MySQL
- ❖ **Development & Deployment:** VS Code, Firebase, Postman, Git, Github

EDUCATION

- ❖ Computer Science Engineering | I.K. Gujral Punjab Technical University, Jalandhar
CGPA: 9.0 | (Aug '20 - Present)
- ❖ XII (CBSE) | Shree Kali Devi Vidya Mandir, Hansi, Haryana
94.2.% | 2020

EXPERIENCE

- ❖ **Full Stack Intern | Hoping Minds, Mohali** (Present)
Contributing to full-stack web development, adeptly utilising React.js for crafting dynamic user interfaces and Tailwind CSS for sleek design aesthetics. Delving into backend development with Node.js and Express.js, skillfully integrating server-side logic and APIs to ensure seamless functionality and a comprehensive skill set.
- ❖ **Web Development Trainee | O7 Services, Jalandhar** (Jul '22 - Aug '22)
Throughout this training, I acquired proficiency in essential web development concepts encompassing HTML, CSS, JavaScript, PHP, and MySQL. Subsequently, I applied these acquired skills to conceptualise and execute a project, putting my knowledge into practical use.

ACADEMIC PROJECTS

- ❖ **ChatWave - Real Time Chat Application**
A cutting-edge real-time chat platform integrating advanced authentication measures to ensure secure and seamless communication among users.
Tech Stack: ReactJs, Tailwind CSS, daisyUI, Node.js, Express.js, MongoDB
- ❖ **SkyScan - APIs based Weather Application**
Created a web app that integrates with a weather API to deliver current city weather.
Tech Stack: ReactJs, Handlebars, Node.js, Express.js, MongoDB
- ❖ **BurgerGenius - Custom Burger Builder**
Designed a user-friendly web application that allows authenticated users to customise their burger by selecting ingredients and seamlessly complete their purchase.
Tech Stack: ReactJs, Firebase
- ❖ **MendHouse - Home Service Booking Platform**
Created a user-friendly web-based platform that simplifies the process of booking handyman services for your home.
Tech Stack: HTML, CSS, Javascript, PHP, MySql
